

Acoustic Emissions Monitoring - MIDAS Meter®

Mechanical Technicians/ Engineers, Maintenance Technicians/ Engineers, Engineering Apprentices and Trainees, and Graduate Engineers, should attend this one-day training course to gain knowledge and operational awareness on the use of Score's innovative state of the art, MIDAS Meter® monitoring and quantification equipment.

Learning

A combination of both theoretical and practical based learning

Skills you will learn

- What emissions are
- The development of the monitoring system
- How to operate the equipment
- Potential leakage areas
- Health, safety and environmental risks which may arise resulting in loss of production
- Valve orientation
- Preparation of the equipment
- Operation of the MIDAS Meter® equipment
- How to use the equipment to quantify through valve leakage
- How to accurately record data, generate reports and upload data to customers
