Engineering Courses

Actuators

This introductory one-day course gives an insight to different features of actuator design.
This course would be extremely beneficial for Mechanical Technicians/Engineers, Maintenance Technicians/Engineers, Instrument Technicians/Engineers, Engineering Apprentices and Trainees, and Graduate Engineers to attend.

Learning

75% Practical (Workshop based)
25% Theory (Classroom based)

Skills you will learn

- How actuators work
- Typical applications
- Common defects and repair solutions
- Basic design principles of various actuator types
- How to dismantle, inspect and reassemble basic actuator types
- Health, safety and environmental risks which may arise, and lead to loss of production
