Engineering Courses

# Direct Spring Pressure Safety Valves - Advanced

This four-day training course provides attendees with advanced knowledge on the design, operation, maintenance, installation, and problem troubleshooting of Direct Spring Safety Valves.
This course would be beneficial to Mechanical Technicians/ Engineers, Maintenance Technicians/ Engineers, Engineering Apprentices/ Trainees, and Graduate Engineers.

## Learning

A combination of both theoretical and practical

## Course Agenda

**Day 1**
History of Direct Spring Safety valves
Standards relating to PSVs
PSV operation
PSV calibration
PSV installation
PSV troubleshooting
Model numbering
Spring size and selection
Question & answer

**Day 2**
Quality Assurance card completion
Toolbox Talks
Valve maintenance instructions
Practical demonstrations
Question & answer

**Day 3**
Practical assessment in workshop
Instructor/Candidate feedback

**Day 4**
Practical assessment continued
Written assessment
Closing remarks
