Engineering Courses

Valve Appreciation

This one-day training programme has been designed to give initial information on all valve types and their function in a theoretical format.
This course would be valuable for Mechanical Technicians/ Engineers, Maintenance Technicians/Engineers,Engineering Apprentices and Trainees, and Graduate Engineers.

Learning

80% Theory (Classroom based)

Skills you will learn

- Basic valve types
- To visually identify valves by type
- How valves work and the functions they carry out
- The numerous types of media they can be used on, and the advantages of each
- Common defects
- Health, safety and environmental risks which may arise resulting in loss of production
