

## Valve Survey Techniques

This one-day training course gives you the opportunity to enhance your knowledge on survey techniques for valves, and associated equipment, in different environments. It is advised that Sales Engineers, Engineering Apprentices and Trainees, Offshore Technicians, Business Units, and Technical Purchasing, all attend this practical course.

### Learning

60% Practical (Workshop based)

40% Theory (Classroom based)

### Skills you will learn

- How to carry out safe working practices for the examination of in-line valves and related equipment
- The information required to conduct a successful survey
- The benefits of a survey
- The required documentation needed
- How to complete the documentation correctly to ensure traceability is restored
- The survey process
